

To Whom It May Concern:

Please do not implement any federal proposal that would lessen the state's law concerning Indiana's Telephone Privacy law. When I first moved to Indiana, I was receiving 4 to 8 calls a day; up until 9pm at night. Now that I have been on the list for privacy, I have not received any calls in the past two weeks. I am very grateful to the Attorney General for the privacy law. And the quality of my time at home has dramatically improved. Please leave the state's laws alone in this matter. Thank you for your time.

I am:

Gene Farris
